- Frameworks/tools: React, NextJS, GatsbyJS, Git, Figma, Photoshop
- Human Languages: Fluent in English and Hokkien; Conversational Mandarin and Malay

## RELEVANT EXPERIENCE

---

*The Gazelle, NYUAD - Abu Dhabi, UAE*

**Web Chief**

Jan 2021 – Present

- Used Javascript and React
- Maintain a 5-year-old codebase for a student newsletter that serves over 1000 viewers a month
- Contributed a requested feature to have the ability to add/remove access of admins from the admin panel itself
- Fixed a production-breaking bug that was delaying new issues by hours

*HuDa Lab, NYUAD - Abu Dhabi, UAE*

**Research Assistant**

Oct 2021 – Present

- Used HTML, CSS, and Javascript
- Worked in a team of 2 to build algorithm data visualizations for the Database Management Systems course
- Built interactive visualizations for a few algorithms such as Linear Hashing, Extendible Hashing, Bloom Filters, R-Trees
- Implemented the visualizations on the course website, which is used as reference material by course students

*Unix Lab, NYUAD - Abu Dhabi, UAE*

**Unix Lab Monitor & Learning Assistant**

Sept 2021 – Dec 2021

- Tutored/assisted over 20 unique students with CS/CPE assignments
- Assisted students with code and ideas for their projects, assistantships and internships
- Taught and provided learning resources for core CS concepts such as trees, hashing and depth-first search

*eMasons Solutions - Kuala Lumpur, Malaysia*

**Software Developer Intern**

Sept 2019 – Apr 2020

- Used JavaScript, React Native, and Swift
- Contributed to the development of an iOS app for a visitor management kiosk using React Native, starting from project planning to project execution
- Ported a Python library used for facial recognition to Swift, and made it a React Native library to be used in the visitor management kiosk app
- Worked in an Agile/Jira based environment
